Cardinal Operating Company  
306 County Road 7 E  
Brilliant, Ohio 43913

**Notification to Landowners influenced by Groundwater Exceedances**

This statement serves as notification, in accordance with CCR Rule § 257.105(h)(6), that after groundwater concentrations were detected above the Groundwater Protection Standards, the owner must notify landowners who can be impacted by the release.

Cardinal characterized the nature and extent of the release and determined the impacted groundwater discharges through a seep and is captured in a permitted NPDES Outfall. Therefore, no landowner notifications were made.

Cardinal will continue to monitor groundwater conditions in accordance with § 257.90 through 98. If groundwater conditions change, Cardinal will notify potential impacted landowners.
